

SWFT Third Party e-Fingerprint Service Providers

DEFENSE COUNTERINTELLIGENCE AND SECURITY AGENCY

Updated: 09/6/2023

The *SWFT e-Fingerprint Service Provider's* list serves only as a reference guide to identify SWFT registered service providers for the purposes of electronic fingerprint capture and/or submission. This list neither suggests nor implies any endorsement or preference by the DCSA or the Department of Defense (DoD) about the qualifications or any other aspect of the entities listed. SWFT access requirements outlined by the DCSA must be met prior to listing.

Any business or entity meeting the pre-requisites may request a listing. Pre-requisites and listing application procedures can be found on the DCSA website under the SWFT PROCEDURE FOR APPROVING THIRD PARTY SERVICE PROVIDERS. Service providers are limited to the use of SWFT Biometric Upload. All other available connectivity options are for DoD and Federal Agencies only.

To maintain presence on the *SWFT e-Fingerprint Service Provider's* list, the service provider must maintain the pre-requisites and ensure that POC information remains updated with SWFT/DCSA. The list will be audited by DCSA to ensure that the listed providers are in compliance with established system access policies and procedures. Non-compliance will result in account deactivation and removal from the provider list. The service provider may re-apply for listing after the pre-requisites have been met. DCSA reserves the right to deny listings for non-compliance and/or additional security concerns.

DEFENSE COUNTERINTELLIGENCE AND SECURITY AGENCY

Fingerprint Capture: Fingerprint Image Capture and creation of electronic fingerprint files (.left or .sub)

SWFT Submissions: Submission of electronic fingerprint files via SWFT to DCSA for processing

Fingerprint Scanning: Hard card conversion into electronic fingerprint file (.left or .sub)
