

Industrial Security Specialist, GG-0080-13

(Senior Risk Management Team Lead, Senior Due Diligence Team Lead, Senior Entity Triage Team Lead)

Location: Quantico, VA

Clearance: Top Secret Security Clearance with Sensitive Compartmented Information Access (TS/SCI)

Pay Range: GG-13 (\$112,015- \$145,617)

Open: October 1, 2024 – November 30, 2024

This is an open call for resumes. We are currently gathering resumes of qualified candidates to create a pipeline for future vacancies.

Position Summary:

Our Entity Vetting team is responsible for triaging companies for business and security-related risk indicators, evaluating and assessing resultant vulnerabilities, and crafting tailored strategies designed to negate or mitigate risks to national security.

DCSA is looking for creative and innovative personnel with a mission first focus to serve in the following positions:

Senior Risk Management Team Lead (RMTL) - Responsible for reviewing, editing, approving, and leading government-to-government coordination of Risk Management Strategies, informed by the analysis of threats and vulnerabilities, crafted to mitigate or negate company-related business and security risks to national security.

Senior Due Diligence Team Lead (DDTL) - Responsible for conducting research and analysis and overseeing the timely production of business and security-related Entity Vulnerability Assessments evaluating a company's risk indicators and assessing the resultant vulnerabilities' impacts on a company's management personnel, business operations, government customers, security posture, and national security.

Senior Entity Triage Team Lead (ETTL) - Responsible for reviewing, editing, approving, and overseeing the timely production of business and security-related triage level Risk Indicator Reports identifying the ultimate beneficial ownership of an entity and whether key risk indicators related to foreign ownership, control, or influence (FOCI) or other risk factors are present requiring further enterprise analysis of the threats and vulnerabilities.

Specifically, you will be evaluated on the following competencies:

1. **Technical Competence:** Uses knowledge that is acquired through formal training or extensive on-the-job experience to perform one's job; works with, understands, and evaluates technical information related to the job; advises others on technical issues.
2. **Communications:** Communicate (i.e., written and oral) rights, responsibilities, management directives, policies, and/or regulations to employees, supervisors, and/or other pertinent individuals.
3. **Vulnerability Assessment and Management:** *DCAT* Conducts assessments on threats and vulnerabilities, determines the level of risk, and develops and recommends appropriate

mitigation countermeasures in operational and nonoperational situations. Conducts assessments in a counterintelligence context to protect against espionage, other intelligence activities, and sabotage conducted for or on behalf of foreign powers, organizations or persons, or international terrorist activities.

4. **Security:** Knowledge of the laws, regulations, and guidelines related to securing personnel, facilities, and information, including the requirements for handling, transporting, and protecting classified information and proper reporting of security incidents.
5. **Reasoning:** Identifies rules, principles, or relationships that explain facts, data, or other information; analyzes information and makes correct inferences or draw accurate conclusions.

This position is a full performance level position at the GG-13.

You must have specialized experience sufficient to demonstrate that you have acquired all the competencies necessary to perform at a level equivalent in difficulty, responsibility, and complexity to the next lower grade GS/GG-12 in the Federal service and are prepared to take on greater responsibility. Generally, this would include one year or more of such specialized experience.

Specialized experience for this position includes: Demonstrated experience reviewing, editing, or approving highly complex reports or research products, ensuring they meet prescribed quality standards. Experience coaching, training, and mentoring less experienced staff members. Experience conducting workload management tasks, including setting reasonable and appropriate suspense dates based on case prioritization, monitoring completion status, and realigning work as needed. Experience independently responding to requests for information from internal and external government customers. Experience identifying areas for improvement and/or implementing solutions to enhance workflow, product format, training needs, or internal guidance.

Education Requirement:

Substitution of education may not be used in lieu of specialized experience for this grade level.
