James S. Cogswell Outstanding Industrial Security Achievement Awards for 2016

QUANTICO, Va. – The Defense Security Service (DSS) is pleased to announce the winners of the 2016 James S. Cogswell Outstanding Industrial Security Achievement Award. Forty-two facilities were selected for the award, which is presented at the annual NCMS training seminar on June 8, 2016, in Nashville, Tenn.

These 42 facilities were chosen from a population of approximately 13,500 cleared facilities that are subject to recurring assessment, and who represent companies large and small. The award criterion focuses on principles of industrial security excellence. Factors include establishing and maintaining a security program that far exceeds the basic National Industrial Security Program requirements; and providing leadership to other cleared facilities in establishing best practices while maintaining the highest standards for security.

The Cogswell Award selection process is rigorous. A DSS Industrial Security Representative may only nominate facilities that have at a minimum two consecutive superior industrial security review ratings and which show a sustained degree of excellence and innovation in their overall security program management, implementation and oversight. The Cogswell Award is given for outstanding achievement in matters related exclusively to a facility's security program. DSS makes the final selections.

This year marks the 50th anniversary of the Cogswell Award, established in 1966 in honor of the late Air Force Col. James S. Cogswell, the first chief of industrial security within the Department of Defense. Cogswell was responsible for developing the basic principles of the Industrial Security Program, which includes an emphasis on the partnership between industry and government to protect classified information. This partnership ultimately ensures the greatest protection for the U.S. warfighter and our Nation's classified information.

DSS is proud to honor 50 years of industrial security excellence. Congratulations to the 2016 Cogswell Award Winners!
