GENERAL DESCRIPTION

PORTAL URL AND LOGIN
The DCSA Data Portal is hosted on Intelink. Any user with a CAC Card can access the portal. Detailed instructions on accessing Intelink are provided in sections below
Link to Data Portal: https://intelshare.intelink.gov/sites/DDRS/SitePages/index.html

PORTAL DESCRIPTION
The DCSA Data Portal, hosted on Intelink, will support DCSA, NBIS, and Mission Partners for Data Requests, Data Acquisition, and Data Standardization. Any user with a CAC Card can access the portal to make a data request from DCSA.

MAIN PAGE
Once a user is logged in and has navigated to link above the user will see the below splash page.

DISS REQUEST
To make a DISS Request the user must select the second tab above “Request Data Already in NBIS” and they will be navigated to the request form. Once at the form the user will complete all information and hit submit.
NAVIGATE TO THE DCSA DATA ACQUISITION PORTAL SITE

Go to the portal page (link is listed above)

Left click on the CAC/PIV Certificate Link to select your certificate
Left click on your correct cert within the "Windows Security (window)"
Find your applicable cert
Select “OK” after choosing the appropriate cert within the "Windows Security (window)"
Enter your pin in the "Windows Security (window)"
Left click on “OK” within the "Windows Security (window)"

The Intelink site will then direct you to the main DCSA Data Request System Site

CREATION OF USER / SITE SPECIFIC REQUESTS

Users may request user specific needs from the DCSA Data Acquisition Portal team and we will add the requests to our backlog and prioritize them based on government direction. Currently there are common pages and pages designed specifically for the requesters of data. Other users can submit requirements and requests to the portal team through dcsa@rbr-technologies.com for inclusion into our portal development backlog and sprint schedule.
